

AWS Global

TRADING AS AWS, AWS ISI, and AWS CE

ENVIRONMENTAL POLICY

Procedure No: 5.01

Date: June 2021

Issue: 1.1

Page 1 of 1

AWS Global is committed to always managing all aspects of our operations in an environmentally responsible manner.

To ensure environmentally responsible behaviour is accepted as an integral part of our operations, we specifically undertake to:

- Establish an Environmental Management System to help systematically reduce our impacts on the environment.
- Proactively pursue the identification of all hazards and eliminate or, if not possible, manage the risk to as low as reasonably practicable
- A commitment to the protection of the environment including prevention of pollution occurring from our activities and operations.
- Conduct operations in compliance with relevant environmental compliance regarding legislative and regulatory requirements and licences where necessary
- Communicate this policy to our employees and the wider community.
- Educate our employees and contractors on their environments responsibilities and ensure this is integrated into their work practices, training and decision making.
- A commitment to continuously improve the environmental performance of our company.
- Provide a framework for setting environmental objectives.

AWS has a number of environmental programs such as waste management and recycling, monitoring of electricity and water usage, air quality in relation to its environmental responsibilities.

The Company also promotes a life cycle perspective in relation to its activities.

AWS makes this policy available to all interested parties.

This policy is an integral part of our total environmental commitments.
